*Welcome to Payroll Country.*

## NXG G8 Time Clock

The premier, next-generation time clock.

It is essential that the employee time data your organization collects and utilizes is accurate and up to date to prevent fraud and ensure compliance.

Leveraging facial recognition technology, the isolved® NXG G8 Time Clock goes beyond finger biometric capabilities to simplify and speed up the clock in and out process – often in less than a second!

### Gain a higher level of data security.

To prevent fraudulent payroll transactions and ensure the protection of personally identifiable information (PII), the NXG G8 combines an encrypted file system, hardware-backed key storage and a solid operation system to keep data and personal information secure.

### Reap the benefits of facial recognition technology.

- Ensure PII is protected
- Set minimum meal break restrictions to comply with state laws and/or company policy
- Make employee department and job assignment changes
- Use in various lighting, office and environmental conditions

### Features and Specifications

- Facial recognition technology
- High resolution 8-inch capacitive touchscreen
- Connects via Ethernet and Wi-Fi
- Key entry, bar code, proximity, and touchless technology
- Programmed with two relays (optional): door control and bell buzzer
- Supports scheduling up to 32 relay events
- Biometric privacy law acknowledgements
- Attestation

Together let's discuss the most effective employee time tracking clock for your organization. Call **888.237.5800** or visit **completepayroll.com**.
